

STEP UP TO THE TEKS Workshops

McAllen
September
9th & 10th

Plano
September
23rd & 24th

San Marcos
September
16th & 17th

Katy
September 30th
& October 1st

Who: Elementary and Secondary Teachers

What: Full Day Professional Development (9:00am—3:30pm)

Registration Fee: \$100 Each Full Day

(Registered Administrators are FREE of charge.)

While attending the workshop, you will receive:

- Workshop Book (full of discoveries recorded during the day concerning the focus of the TEKS)
- Instructional ideas for high priority focused areas

REGISTRATION

Each workshop day is limited to 100 participants per subject. Register early to guarantee a spot! You must preregister for the workshop with a purchase order or other form of payment (We cannot accept your registration without a form of payment or purchase order.)

48 Hour Cancellation Policy for full refund. GF Educators, Inc. must be notified, in writing, at least 48 hours prior to the day of the workshop. Failure to do so will result in being charged the full amount for each attendee spot reserved (If you fax your cancellation request, call our toll free phone line to verify we received it).

THE NEW READING TEKS SIMPLIFIED

Day 1 elementary and Day 2 middle school

Are “you” ready to implement the new Reading TEKS? How much will “you” have to change the way “you” are addressing the TEKS now? Join our expert with more than 35 years of experience, Gayle Fuller, as “we” dive into the new TEKS and sort the many puzzle pieces into an organized complete picture of student achievement so instruction can be focused and intentional for student learning. “You” will leave the workshop with a workable, plannable, achievable annotated version of the New Reading TEKS for implementation.

ELEMENTARY MATH

Day 2

Are you ready to help develop students who are fluent in mathematical processes? Join us as we address the myths and facts surrounding Math Fluency! Math Fluency is much more than the memorization of math facts and equations. Procedural fluency in mathematics is essential to a student’s ability to apply math concepts accurately and efficiently. Let our experts show you how the TEKS are structured vertically and horizontally to develop a conceptual understanding of addition, subtraction, multiplication, and division.

BRAINS, BRAINS, BRAINS!

Day 1

Can we improve memory pathways in our brains on a daily basis? What do we do when learning doesn’t stick? Join us as we review current brain research and discover how all learners retain information better when they have regular breaks and pauses to process new information. Participants will leave with an understanding of how brains process information and how to improve student’s memory! Attendees will be involved in fun, crazy, interactive brain breaks and discussions that encourage participation in the classroom. Participants will be able to practice new brain breaks and incorporate new skills into lesson planning.

Three ways to register

- ★ At <https://stepupteks.com/Professional-Development.asp>
- ★ Toll free phone line at 866-425-4155
- ★ Fax Order Form below to 903-569-0742
